Stock Collection

Natural Wool

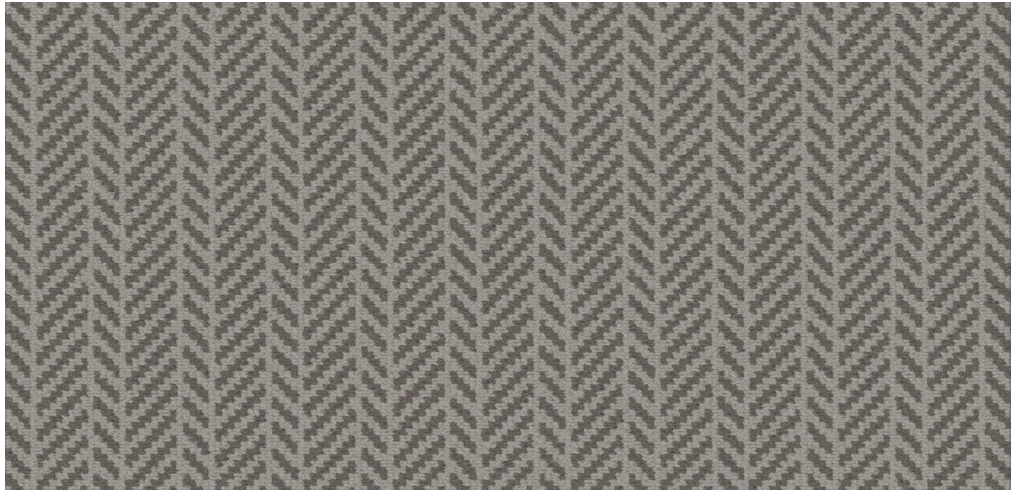

About the Collection

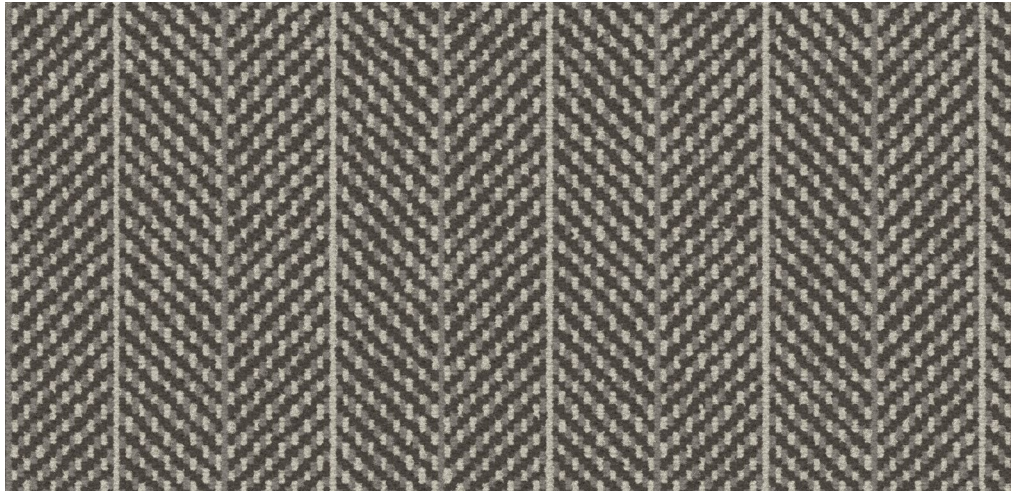

Natural Wool Collection is an eco-friendly stock collection manufactured using pure undyed wools. With no colour dyes or chemical treatments applied, this collection is a smart choice for the environment. Offering six designs manufactured at four metres wide in a heavy commercial specification, making it perfect for guestrooms or public areas.

All our products are manufactured with evobac, a secondary backing made from post-consumer recycled PET plastic. One square metre of evobac prevents at least eight plastic bottles from going to landfill or entering our oceans.

Compliant with all standard British and European regulations for flammability and performance, evobac also offers a comprehensive range of benefits for installers including ease of handling, which is guaranteed through decreased risk of scuffing skirtings and paintwork. Other key benefits are improved anti-fraying properties, reduced wear on blades when cutting and compatibility with all traditional installation methods.

Herringbone

Panama

Pattern repeat:	Contact Sales Office
Width:	4.00m
Total pile weight:	1,350g/m² (39.83oz/yd²)
Pile content:	80% wool / 20% nylon
Suitability:	Heavy commercial
Secondary backing:	evobac

Alpine

Alpine

All Newhey products can be transformed into area rugs with a selection of edge finishes to suit all tastes and budgets.

For more information please email customer services or call us on 01706 846 375.

One square metre prevents at least eight plastic bottles from going to landfill or entering our oceans.

The benefits

Less risk of scuffing skirtings and paintwork.

Excellent underfoot comfort

Easier to cut, reducing wear on blades.

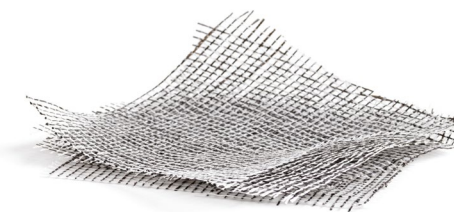

Compatible with conventional installation methods – stretch fit and double stick.

How evobac is made

1 Plastic bottles are shredded into flakes.

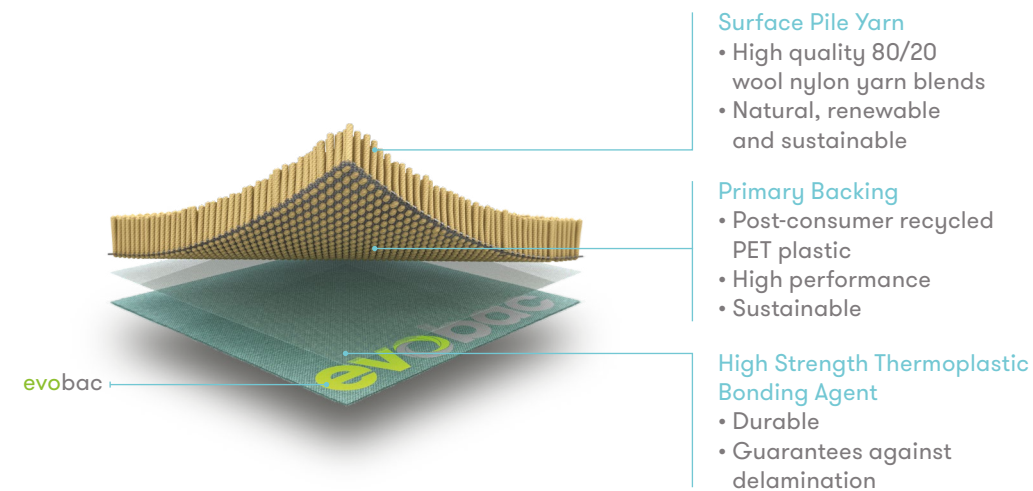

2 The flakes are converted into tape and woven.

3 Next polyester fibre is needled into the woven tape.

4 The result — **evobac**.

Our Story

For over 50 years Newhey has created beautiful wool-rich carpets for the Hospitality and Leisure sectors. The combination of quality design, innovative technology and the best manufacturing expertise results in high quality carpets for hotels, restaurants and bars.

Working hand in hand with designers and specifiers to understand their needs, we act as your design and technical partner to create carpet that is just right for your projects. We are also proud members of the Made in Britain campaign, designing, testing and manufacturing all of our products in the UK.

We employ local people at our site near Manchester benefiting our surrounding community and economy. Our high levels of service and quality would not be possible without the support of our longstanding partners. We rely on the dedication and expertise of local spinners and dyers to ensure our product is delivered on time, on budget and will perform within its chosen environment.
