

NEBA

Pattern. Rooms. Inspirations.

NEBA

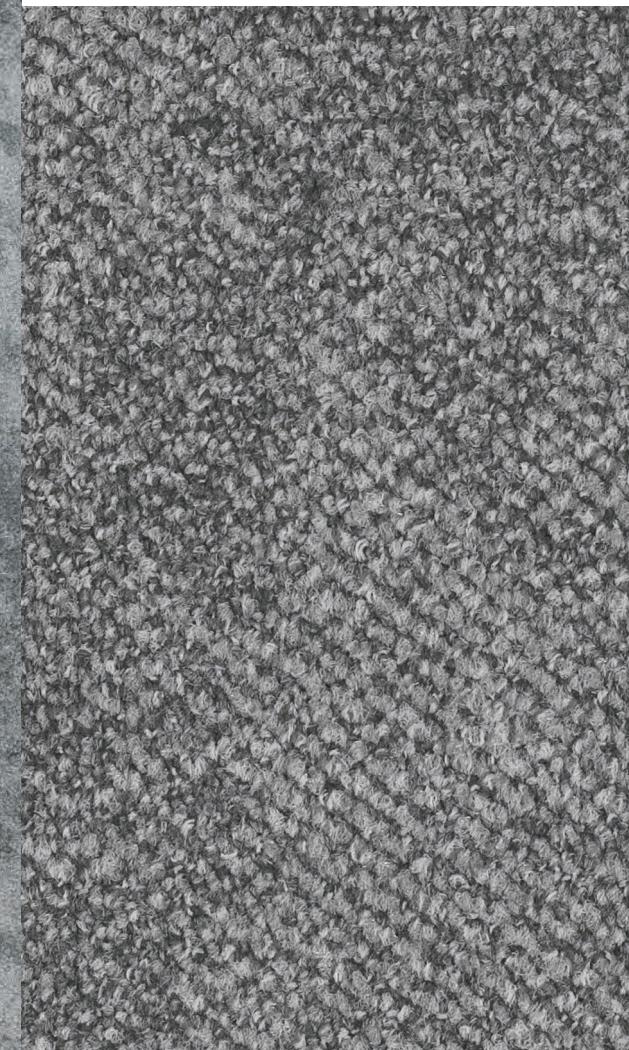

Multicolour patterned carpet tile with loop pile surface in 15 colours.

It is the magic of the moment when the light breaks in the morning fog. Mysterious, elegant and seemingly random. And it is precisely this fascinating atmosphere that inspired the development of NEBA. With a variety of a total of 15 near-natural colours, this collection creates a uniquely natural atmosphere. No tile is the same. Therefore, thanks to the refined surface structure, organic textures appear to be created, which on closer inspection seem to merge into a perfect symbiosis.
